Quotation: Used Hundegger Joinery Machine K2

Dear Sirs,

thank you very much for your enquiry regarding Hundegger woodworking machinery. Please find the following description and quotation for the machine you have expressed interest in.

Used Hundegger Joinery Machine K2 (K2-5-625 - Nr.11588 / year of construction: 2005 / refurbished)

We hope the information provided will answer most of your questions. If you would like to discuss any details further or if you have some additional requirements, please do not hesitate to contact us.

We are looking forward to be working with you.

Yours sincerely

Hans Hundegger AG

Refurbished Hundegger Joinery Machine K2

example picture

In the state-of-the-art assembly factory in Hawangen, used Hundegger machines are taken apart and professionally refurbished. All wearing parts are replaced with Hundegger original parts and key functional parts are replaced as a precautionary measure. Safety devices and software are updated to the latest version for the machine type.

The machine housing is also given a new look. Our experts use dry ice for this, spraying micro-fine, frozen particles on to the surface. The tiny particles reliably remove rust, dirt or peeling paint, leaving the ideal base for a new coat of paint.

Each machine is then subjected to the stringent criteria of the Hundegger quality check. We therefore ensure that all traded-in Hundegger machines are returned to full capability.

I. Description

pos.	articlel	amount	new	total/€
1	Loading conveyor – 5 chains	1		
2	Extension of loading conveyor incl. drive	1

24	Additional storage arm	1	new	430,00

II. Delivery and Payment Terms

The machine is overhauled, it comes completely wired and tested, and is built on a profile steel frame so that it only needs to be set-up and leveled upon delivery. The entire work zone is enclosed to avoid chips from flying around.

The machine conforms to the safety regulations according to ProdSG, Stand 1.12.2011. The customer has to supply building dependent safety walls, fences, barriers and / or covers.

This offer is valid for 3 months and subject to prior sale. The product remains property of the supplier until payment has been received in full. Technical specifications are subject to change without notice.

The price is stated ex works D-87749 Hawangen (Incoterms 2010), any sales taxes excluded. Delivery is carried out in accordance with the ORGALIME general conditions S2012 (viewable on our website; if you do not have access, just mention it to us and we will make a copy available). For any legal relationship between the contracting authority and the contractor the German law will exclusively be applied. The place of jurisdiction is the city of Memmingen, Germany.

Spareparts warranty: 6 months

Spare parts warranty means free of charge replacement of a defective part (not including work hours, assembly, transport, travel costs, board and lodging). The defective original spare part should be cleaned, packaged and returned to Hans Hundegger AG, Kemptener Strasse 1, D-87749 Hawangen, Germany, within 14 days at the latest. In other case, the customer has to bear the expenses for the spare part. Should the return costs for a spare part be very high, our after sales department needs to be previously consulted to decide whether return of the part is reasonable.

Delivery: on demand

Payment: 40 % at order
60 % prior to delivery

Please feel free to contact us with any questions you may have, to visit our factory, to view one of our machines at a reference site or for personal consultation. We are also at your service regarding drawing of plant layouts - at no cost or obligation!

We would be pleased to receive your valued order.

Sincerely,

HANS HUNDEGGER AG
